GREETING

The third event of Shin Murakoshi: 50 years with orienteering is rogaining in the urban areas using old maps. The Jonan district, where Shin studied hard during his high school days, is geologically composed of the Shimosueyoshi-surface and the Musashino-surface. Especially, Shimosueyoshi-surface, which was deposited in older times, is a mecca for the topography lovers. For the three years of high school days, Shin has been holding the Tortoise 3-day event every year, while keeping his hopes of making the leap into the world in his heart. Enjoy the nostalgic feel of the Jonan district with old maps. The social gathering after the event was held at Yabu

Soba, which is run by Shin's old friend Mr. Toyoshima in front of the station. The rivals from those days and old friends from Hong Kong will also be there. I am happy to be able to provide an opportunity to make old stories bloom.
